

THURSTON VERY ANGRY AT TRIALS

Vigorously Criticised Capt. Chapman During a Hearing at Police Headquarters.

WANTS BETTER DISCIPLINE

Paid His Respects to the Sergeant of the Leonard Street Station—Mayor's Secretary a Witness.

Deputy Police Commissioner Thurston in police trials to-day publicly criticised Capt. Chapman, of the Mercer street station, and the sergeants at the Leonard street station.

The Deputy Commissioner let his anger against Capt. Chapman's methods show when Patrolmen Devanny and Durnin, of the Mercer street station, were brought up to answer the charge of leaving their beats and entering the station before their hour.

After he had heard their excuses Capt. Thurston said:

"You tell your Captain that fourteen of his men were within 200 feet of the station at ten minutes to six yesterday morning. I was there, and I saw them, so I know all about it."

At this time Capt. Chapman was sitting within ten feet of the Deputy Commissioner, waiting to appear in a case. When he came forward to prefer charges against two of his men for being found in a restaurant, Deputy Commissioner Thurston shook his forefinger at him and said:

"You had better warn your roundsman and have him serve notice on the men that this thing must stop. We are not going to have that kind of conduct any longer."

Capt. Chapman bowed, and left the trial room with every individual whisker standing straight out.

James B. Reynolds, secretary to the Mayor, was a complainant against Patrolman L. J. Torney, of the Leonard street station.

Mr. Reynolds charged the policeman with being intoxicated aboard a Fourth avenue car some days ago, of going asleep on the car and walking unsteadily when he got off.

Sergeant Shore and two policemen of the Leonard street station said they saw no signs of intoxication when Torney reported off duty on the day in question.

"The trouble with you sergeants," said the Deputy Commissioner, addressing Shore, "is that you never see anything you don't want to see."

Decision was reserved.

FORMING LINES FOR A GENERAL STRIKE.

Anthracite Men Are Bending Every Energy Toward Controlling Convention Called to Meet in Indianapolis.

(Special to The Evening World.) WILKESBAURE, Pa., June 19.—The prospect of a general strike in the anthracite region is now under way.

A national strike of miners is ordered—and there is little doubt it will be—the railroad employees will be asked to unite in a general refusal to haul any soft coal from the anthracite districts.

Although one-fourth of all the coal now mined is put out by non-union men, the object of President Mitchell is to bring about a complete suspension of coal traffic.

It is said he will show such gigantic power that no believes no combination of capital and labor successfully resist. The railroad employees in this district have already declared themselves opposed to hauling non-union coal.

It is difficult to discriminate between union and non-union soft coal, many trains being made up of cars filled with union and non-union mined coal.

In the event of a general strike of miners, however, all coal mined would be declared non-union.

In the month before the convention is called, emissaries from this region will go among the soft-coal men and try to arouse a strike feeling. At present in some parts of the soft-coal section there is a disinclination to strike and the officials of the union will do all that is possible to avoid a split. If a resolution ordering a general strike should pass by only a small majority the minority might refuse to obey the order.

RAILROAD PREPARING FOR A LONG STRIKE.

According to a telephone message received in this city to-day by one of the largest dealers in soft coal, the Pennsylvania Railroad Company has notified the operators in Western Pennsylvania that it will take a certain proportion of the output of the mines for its own use, to be held for an emergency.

This is believed to be the result of an order from the labor leaders that the soft coal miners remain away from the mines two days of each week.

Wholesale prices for soft coal were somewhat stiffer to-day. For the cheaper grades, \$4.25 "alongside" was asked, while for the better grades as high as \$4.50 "alongside" was asked and received.

STRIKERS GET 8-HOUR DAY AT ONE MINE.

HAZELTON, Pa., June 19.—The regular engineers, firemen and pump runners at the Hazeltown Run colliery, operated by M. S. Kemmerer & Co., were turned to work to-day, having, it is said, been granted the eight-hour day concession with the understanding that it is to be continued indefinitely if other companies accede to the demand at the close of the strike.

The manager of the company when interviewed said: "This is a purely local affair and I have absolutely nothing to say about it."

"SHOOT RIOTERS!" PATERSON MAYOR ORDERS.

HARRIS WAS SHOT.

(Continued from First Page.) stay at home as he was temporarily under suspension. It is expected that this summary action will be followed by the filing of charges against the Chief for incompetence and neglect of duty.

Mayor Hinchliffe said to-day: "Chief Graul will be tried on charges. That is all I care to say about his case for the present."

"It was ex-Gov. Voorhees who said that Chief Graul was responsible for the prevalence of the anarchistic element here, and that he ought to be put out of office if he had to be legislated out."

Chief Graul is a civil war veteran and has held office through political influence for the past forty years.

The first sign of activity by the police under the Mayor's direction was the arrest of Peter Conterl, who is said to be an Anarchist from Passaic. He was doing carpenter work near the Bamford Mill, which was partly wrecked in yesterday's riot.

The police on guard there saw Conterl conceal something under a pile of shavings. Suspecting that it might be dynamite the police investigated and found Conterl had hidden a fully loaded revolver wrapped in a red handkerchief.

He was handcuffed and taken to Police Headquarters.

Mayor Hinchliffe was surprised to-day to receive a visit from a committee of five, representing the striking dyers' helpers, who created yesterday's disturbance. They requested permission to hold a meeting in the Town Hall.

"So you are asking permission to-day," said the Mayor after recovering from his surprise. "Well, I'll let you hold your meeting, but if there is any incendiary talk, I'll put you all in the jug."

The delegation retired in confusion to consult about the advisability of holding a meeting under police surveillance.

ARMED MEN AT WORK AT THE LOOMS NOW.

PATERSON, June 19.—When the employee of the Peilgram & Meyer Mills, on Matlock street, reported for work this morning every fourth man of the three hundred male employees was provided by the management with a gun.

During the night shotguns, Win-

chesters and revolvers comprising a small but formidable arsenal were quietly carried into the mill. Accompanying the weapons were thirty rounds of ammunition for each piece.

With the arrival of the men workers the firearms were distributed, and the employees went to their looms, armed as prepared for any emergency.

Tenants in the houses near the mill were notified that the mill management was prepared to give battle to the rioters in the event of the appearance of the latter, and cautioned the householders to vacate their premises on the first sign of trouble.

"We are prepared to meet the rioters," said a member of the firm to-day, "and give them a warm reception if they attempt to repeat the performance of yesterday. It is self-protection with us and our employees, who protest to a man against the display of violence witnessed yesterday. They are determined; so are we."

THREE SILK MILLS IN JERSEY CITY SHUT DOWN WORK.

Three silk mills in Hudson City, Jersey City Heights, including the Polkard Silk Company's mill, at Summit and Paterson avenues, did not open to-day.

The silk mill officials declare the suspension is due to the closing down of the dye works in Paterson.

Between 600 and 650 men are out of work in consequence of the Jersey City shut-down.

SOFT COAL FIGHT IN JERSEY CITY.

Grand Jury Instructs Public Prosecutor to Report the Names of All Persons Using Bituminous.

Foreman John Edelstein, of the Hudson County Grand Jury has ordered the Prosecutor of the Peace of Jersey City to report to the Grand Jury the names of all persons in the city who are using soft coal. Subpoenas are then to be issued for them to appear before the Grand Jury and explain why they are using it.

Mr. Edelstein said that the conditions in Jersey City from the use of soft coal were rapidly growing intolerable and that some drastic measures would have to be taken.

It is said to be the intention of the Grand Jury to indict all who are proved to be using the bituminous coal.
